

SANJAI KANNA B C

sanjaikannabc26@gmail.com | +91 8072417190 | linkedin.com/in/sanjaikannabc | Chennai

Analytical graduate with hands-on experience in SQL, Python, PostgreSQL, R, data analytics, feature engineering, and workflow automation. Skilled in preparing large-scale datasets, automating reporting workflows, and supporting machine learning and business analytics initiatives.

EXPERIENCE

Data Science Intern — CreditMantri Pvt. Ltd. Jun 2026 – Present

- Queried and transformed large-scale customer, bureau, campaign, call, and product data using PostgreSQL for analytics and feature engineering.
- Performed exploratory data analysis (EDA), feature engineering, and data preprocessing to support customer propensity and classification modeling.
- Automated recurring MIS reports using SQL, Python, and R, improving reporting efficiency and reducing manual effort.

Data Engineering & Automation Intern — Chennai Metro Rail Ltd. Dec 2025

- Processed and reconciled financial transaction datasets ranging from 4 lakh daily records to over 20 lakh records across 30-day reporting cycles.
- Developed Python-based automation tools to validate, merge, and reconcile multi-source datasets with automated discrepancy detection.
- Reduced reconciliation time from approximately one working day to under five minutes by automating end-to-end workflows.

Fundamental Analysis Intern — Absolute Broking Pvt. Ltd. May 2025

- Collected and analyzed financial statement data of listed IT companies to evaluate profitability, liquidity, and leverage using financial ratios.
- Ranked companies based on valuation and performance metrics to support comparative fundamental analysis.

Data Visualization Intern — Antontech Pvt. Ltd. May 2024

- Processed and transformed business datasets using Power Query and DAX to support reporting requirements.
- Developed Power BI dashboards using standardized business data to deliver operational insights.

SKILLS

Programming & Databases: Python, SQL (PostgreSQL), R

Data Science & Analytics: Exploratory Data Analysis (EDA), Feature Engineering, Data Preprocessing, Regression, Classification, Descriptive Statistics

Data Visualization & BI: Power BI, Tableau, DAX, Excel

Data Engineering & Automation: Data Validation, Data Transformation, Data Aggregation, Workflow Automation

Tools & Platforms: Git, GitHub, Microsoft Azure, Google Cloud, Tally

PROJECTS

Predictive Analysis on Mobile Usage and Sleep Patterns

- Analyzed mobile usage and sleep duration data using Python (pandas, NumPy) and linear regression (statsmodels).
- Identified a negative relationship between screen time and sleep duration, supported by statistical trends and visualized using matplotlib.

Financial Reporting Dashboard Project

- Designed and developed a Power BI dashboard using structured financial data to support performance reporting.
- Implemented DAX-based calculations for trend analysis and comparative metrics across reporting periods.
- Applied data modeling principles to ensure reporting accuracy and consistency.

EDUCATION

BS in Programming & Data Science, IIT Madras Diploma Level(ongoing)

B.Com (Computer Applications), Loyola College, Chennai Apr 2026 | CGPA: 8.91

- Positions: Editor, LIAC Magazine (2024–25); Organizing Committee Member, Matrix 2025

CERTIFICATIONS

- Foundation Level – Data Science & Applications, IIT Madras
- Business Analyst, Institute of Analytics
- Data Analytics Job Simulation, Deloitte Australia (Forage)
- Data Visualization in Power BI, DataCamp
- Introduction to SQL, DataCamp
- Python Data Associate, DataCamp
